**GET PREPARED!** It is impossible to know when a disaster may strike. Disasters vary from simple to complex, from personal to those impacting an entire region. Preparing before it happens is vital. Simple actions can make a big difference to you and your family! The Preparedness Fair will give you the knowledge you need to ensure you are safe and ready when disaster strikes. From May 2010 to July 2011 damage from record breaking flooding and violent storms led to eight federal disaster declarations in Tennessee alone!
